

MC810

OFF-LINE CARTON OVERPRINTING SYSTEM

Features

- Simple, reliable operation
- Choice of hot foil, thermal transfer or inkjet printing units
- Suitable for a variety of shapes
- Print areas up to 106 x 106 mm
- Belt/friction feed system
- Batch counter
- Auto shut-off
- Easy to set up
- Accurate print position control
- Optional mobile trolley stand

The MC810 is an automatic feeding system suitable for a wide range of flat items including paper labels, cards, sleeves, cartons, crash lock cartons and skillets. When fitted with a hot foil, thermal transfer or inkjet printer or a deboss coder from our comprehensive range it provides an extremely versatile, off-line, stack to stack overprinting facility.

Featuring a fully adjustable infeed hopper and outfeed catching tray the MC810 can be easily adjusted to suit a wide range of product sizes, shapes and thicknesses without the need for change parts. During feeding, products are held tightly between a pair of side belts and their progress through the system is controlled by dual optical sensors.

Open Date's range of printers includes smaller coding units enabling date and batch marking and also sequential numbering and larger printers enabling the same but with sufficient capacity to also print graphics, pack contents, ingredients lists, barcodes etc. etc.

Specifications

Maximum product size	400 x 400 mm
Minimum product size	45 x 120 mm
Maximum product thickness	4 mm
Throughput speed	Up to 60m per min
Print Cycles per minute	Up to 180
Dimensions (L x W x H)	≈1436 x 665 x 695 mm
Weight	≈150 Kg
